

bio.inspecta International Projects

Who is bio.inspecta?

bio.inspecta is a Swiss inspection and certification body for organic agriculture, processing and trade. bio.inspecta is accredited according to EN 45011 / ISO/IEC 65 and ISO 17020.

What does bio.inspecta offer?

bio.inspecta inspects and certifies organic projects worldwide according to the following standards:

- EU Organic Regulation
- Swiss Organic Farming Ordinance
- Bio Suisse Standards
- National Organic Standards of the USA (NOP)
- Delinat Wine Standards
- Demeter
- GLOBALGAP
- JAS

bio.inspecta offers inspection and certification services worldwide and has clients in many different countries such as Cuba, Tanzania, India, Indonesia, Albania, Lebanon and Romania to name only a few. Certified products are, for instance, tropical fruit juices, coconuts, cotton, coffee, wine and many more.

Who are bio.inspecta's Partners?

Nowadays, more and more organic standards and labels are established by governmental or private institutions. In order to be able to offer a wide range of services, bio.inspecta operates in a network of partner certification bodies. For certifications against the Japanese Standards (JAS), for instance, bio.inspecta collaborates with BCS Öko-Garantie GmbH, Germany.

Other partners of bio.inspecta are:

- ABG Austria Bio Garantie (Austria)
- INDOCERT (India)
- LETIS (Latin America)
- Eco-LOGICA (Latin America)
- Eco-Control (Russia)
- Ecoinspect (Romania)
- Albinspekt (Albania)
- LibanCert (Lebanon)
- ACO (Australia)
- TANCERT (Tanzania)
